### SHOREMASTER DOCK SYSTEMS FEATURE REMOVABLE, RECESSED DECKING PANELS, BUT WHY?

We build the strength of our dock systems into the frame sections themselves. We don't rely on the decking attachment to provide the system its strength. Second, it's better for the owners of our systems. It provides options and makes installation, removal, upkeep and upgrades much easier.

Light, Easy Installation/Removal • Update Opportunities • Repairs to Single Panel, Not Entire Dock  
Trust That the Integrity and Strength of Your System is Within the Frame Itself
